Corporate Fact Sheet

Global Headquarters:

Newbury Park, California USA

Year Founded:

1998

Company Description:

Nomadix is the leading provider of intelligent network devices and interconnect services that make nomadic computing easy. The company offers the Nomadix Service Engine (NSE), which allows the operators and venue owners to deploy a cost effective, secure and easy to use high-speed Internet access offering.

Market and Technology Leadership:

Having shipped over 39,000 units throughout the world, the NSE is specifically designed to sit at the edge of the network in Real Estate (MTU, MTU), Hospitality and Metro venues allowing deployment of a cost effective, secure and easy to use service offering. The NSE consists of an extensive patent and patent-pending portfolio of intellectual property covering more than 15 unique areas of functionality needed to successfully deploy public access networks.

Customers:

Nomadix' Gateways have been deployed in a variety of Venues by companies such as China Netcom, Best Western, Hilton, Marriott, NTT-ME, Red.es, PicoPoint, Reliance Telecomm, Motorola, Intercontinental Hotel Group and Starwood.

Management Team:

Nomadix is a wholly owned subsidiary of DOCOMO interTouch, a provider of total integrated technology solutions to the hospitality industry.

Craig Scott, Managing Director

Ian Brown, Director of Sales – North America

Sam Ekblom, Director of Sales – EMEA
