

How to Enable Facebook Login with Firmware 8.5

Configure your Facebook APP to allow logins from the Nomadix Access Gateway. Facebook app and app ID is required, follow the Facebook instructions at <https://developers.facebook.com/apps> and click on the Register Now button.

Note, existing applications may be experiencing an issue “Can’t load URL” message. Consult Facebook for a solution. At the time of document creation <https://wp-native-articles.com/blog/news/how-to-fix-facebook-apps-error-cant-load-url-domain-url-isnt-included-apps-domains/>

Once you have an App and Security code configure the Nomadix Access Gateway for redirection to your Facebook account.

- 1) Navigate to Subscriber Interface, Billing Option. Select a plan, enter a description for the plan, enable Facebook Login and select a Time Unit.
