

Purpose: To Create/Enable X over Y Billing options

Step 1. Billing Options Overview

Review the billing plans (normal plans and X over Y plans) that are currently active. To view or edit a billing plan, simply click on the **View/Edit/Delete** button.

By default all (6) billing options are Normal Plans. To create a X over Y plan you will need to delete one of the Normal Plans first. Click on **View/Edit/Delete** button of the billing option that is not in use and click on **Delete This Plan**. The Billing Options screen will now have an option to create a X over Y plan.

Create New Normal Plan

Create New XoverY Plan

Normal Plans

Number	Active	Label	
1	Yes	Plan B	View/Edit/Delete
2	No	Label 2	View/Edit/Delete
3	No	Label 3	View/Edit/Delete
4	No	Label 4	View/Edit/Delete
5	No	Label 5	View/Edit/Delete

XoverY Plans

Number	Active	Label	
--------	--------	-------	--

2. Create X over Y Plan.

To create a new plan click on **New X over Y Plan**

The Setup screen appears for the billing plan (and type) you selected.

Private

Public NOTE: Public option requires IP Upsell to be turned on. Otherwise, subscribers will receive private IP addresses.

NOTE: Usernames will be enabled if you submit an XoverY plan.

1. Click on the **Enable** check box to enable (make active) this billing
2. Define a “label” for this billing plan in the **Label** field.
Each plan must have a unique label, different from other plans.
3. Enter a description for this billing plan in the **Description of Service** field.
4. Enter the cost the plan in the **Plan Cost** field.
5. Enter a duration value for this plan in the **Plan Duration (X)** field.
6. Define the “time unit” for the duration value you entered in Step 5. The time unit can be defined as either **Minute, Hour, or Day**.
7. Enter plan validity value for this plan in the **Plan Validity (Y)** field.
8. Define the “time unit” for the plan validity value you entered in Step 7. The time unit can be defined as either **Day, Week, or Month**.
9. Define the **Up (to network)** and **Down (to subscribers)** bandwidth range for this billing plan.
10. Define the DHCP Pool (public or private) -- see following note.

The “public” option requires IP Upsell to be turned on, otherwise subscribers will receive private IP addresses.

11. Click on the **Submit this Plan** button to save your changes and establish this billing plan.

Alternatively, you can click on the **Delete this Plan** button if you want to delete this plan, or click on the **Reset** button if you want to reset all the values to their previous state.

X over Y is also available via XML. Please ask Nomadix Technical Support to obtain XML DTD document.
